**14** Years of  
Trust & Excellence  
in Higher Education

CAD & Building studies programme is designed to produce CAD Draughtsman, Construction Supervisors etc., within just 6 month. This course targets local and foreign job market where a huge demand prevails for CAD professionals. The optional modules on Land Surveying and Interior Designing provide additional skills to students with thorough practical training on total station and land surveying related software applications.

### Unique features

- Comprehensive syllabus covers civil Architecture & MEP (Mechanical, Electrical & Plumbing)
- 6 months intensive training
- Practical training to ensure ready employment without need of additional training
- Technical English training as an additional component of the programme
- Qualified training with working experience in the Gulf including Civil Engineering & CAD experts

### Course Structure

- Mathematics and Techniques
- Surveying and Leveling
- Building Measurement
- Construction Materials
- Building construction Technology
- Building services
- Drawing and Techniques
- CAD – 2D Theory and practical sessions based on Auto CAD
- CAD – 3D Theory and practical sessions based on Auto CAD English
- IT Skills for professional Development

### Fee Structure

- Registration fee : 6000.00
- Course fee : 88000.00
- Initial fee payment : 30000.00
- Installments : 11600.00 X 5 months

#### Award from BCAS Campus

- Professional Diploma in CAD
- Certificate in Construction Technology

#### Direct Award from Edexcel, UK

- Diploma in CAD & BS

#### Colombo Campus :
