About Belarus

Belarus is situated in the center of Europe, and has international borders with five countries:

- Russia
- Ukraine
- Poland
- Lithuania
- Latvia

Although a landlocked state, the location has made Belarus an important trade and transport route between Europe and the Commonwealth of Independent States. It's just a day's travel from Germany.

Minsk, the capital of Belarus, is located in the center of the country. It is a modern international city.

About the Programme

MD (Doctor of Medicine) is the name of the degree awarded by the Minsk and the Gomel State Medical Universities. The degree is duly approved and accepted by

- Sri Lanka Medical Council (SLMC)
- World Health Organization (WHO)
- General Medical Council (UK)
- Educational Commission for Foreign Medical Graduates (ECFMG) - USA
- Australian Medical Council (AMC)
- Medical Council of India

The students and their parents who are serious about medical education overseas must think about the backdrop why many miss prospects having spent hugely to earn a medical degree. Attention must be paid to the following matters

- Whether the medical degree I hope to earn is recognized by the SLMC or the similar foreign institutions?
- Does the university I choose have the facilities and resources required for a fully-fledged medical degree?
- On what justification the cost is structured and what are the breakdowns?
- Is the degree taught entirely in English?
- During the course of my medical degree, will I get extensive/ sufficient practical training in the hospitals?
- What is the actual duration of the medical degree course?
- What about residential or hostel facility and food? What are the cost breakdowns including incidentals?
- What prior arrangements and training facilities are in place to get through the **EPRM** examination in Sri Lanka comfortably?
- What kind of training will be given to face similar such foreign examination like General Medical Council (UK), Educational Commission for Foreign Medical Graduates (**ECFMG**) – USA, Australian Medical Council (**AMC**) and Medical Council of India.
- What kind of opportunities will be given to those who aspire to do postgraduate studies or specialized education in medicine?
- Will I be eligible to secure membership during and after my medical education from the accredited international medical research organizations and thereby obtain some advance experience?
- Whether the fee charged by the local agency to secure admission to the overseas medical college is justifiable in terms of the services provided and the benefits obtained.

BCAS CAMPUS provides solutions for all above concerns. Please talk to our counselors for more information...
